

Just a short note to confirm Sunday 24th March is on for the next drains session.

Meet as usual at the Minffordd mess at 8.45am

The day's activities as a change from rodding will, I propose, include;

- Finding a chamber at Lloc Meurig (Which probably does not exist so we need to build a new one, as its a very long run at present)
- Remove spoil from Penrhyn station area
- Re-point the chamber lid frames from Glan-y -Pwll crossing to Bf
